- 1) ~~Syllabus~~ to be reviewed with the ^{objective to} achieve ~~object of~~ 60% practical and 40% theory.
- 2) one paper per semester to be evaluated in the Dept with innovative Evaluation approach
- 3) Subject Specific Elective to be introduced.
- 4) All the existing subjected unit content to be checked with the concerned faculty.

4/3/12

Note: Can mathematics be added in core stream in SEMESTER V & SEMESTER VI [Enclosure maths syllabus]

If yes - why?

If no - why? ~~idea~~ we can add maths content in the concerned core papers, based on the need ^{as} ~~and~~ one unit.

5. Dr. K. SUDATHA

Mathematics can be added in core stream for V semester, b'cos it would be helpful for studying CAPSA. The 5th sem course should be on numerical methods.

Mathematics in VI Sem is not advisable b'cos normally students find it difficult to clear the paper. If at all mathematics need to be included it can be an OR paper. This will be helpful for the students during their 8th sem project.

K. Sujatha
5/4/17

For every one subject in the semester, an extra module can be added. This module should be totally based on Industrial methods and should be taught by an expert from Industry

Note: Can mathematics be added in core stream in SEMESTER V & SEMESTER VI [Enclosure matrix syllabus]

If yes - why? ✓

If no - why?

6. Dr. V. KARTHIKEYAN

B.Tech EIE

The subject BIO-medical Instrumentation (BIC13002) may be moved to sixth or seventh semester and Principles of communication BEC13036 can be moved to 4th semester.

Subject BEI13003, Control Engineering syllabus looks vast, hence 5th unit can be removed from Syllabus.

The topics model Predictive control and Adaptive control can be removed from unit IV in BIC13005, Process control, since those topics are beyond the scope of under graduate students.

Note: Can mathematics be added in core stream in SEMESTER V & SEMESTER VI [Enclosure maths syllabus]

If yes - why? } NO, It is enough to have
 If no - why? } maths-III and math-IV is curricular

V. Karthikeyan

7. Dr. A. NALINI

- * In third sem the Computer aided electric circuit is a lengthy paper, though it is an internal paper, students find difficult to clear in that subject.
- * In each semester one internal paper can be included so that the practical component shall increase.
- * The evaluation system for internal papers need to be framed on a common basis & transparent.
- * Most of the papers are 4 credit papers, so if there is any possible it can be reduced to 3 & some more papers related to the industrial trend shall be incorporated.
- * Special elective groups shall be introduced.
- * In the present syllabus especially in 6th, 7th semesters some contents are present in various subjects which can be eradicated.
- * Latest technology papers shall be included in the new curriculum.

Note: Can mathematics be added in core stream in SEMESTER V & SEMESTER VI [Enclosure mathe syllabus]

If yes - why? } No, already in some of our core papers, the mathematics (derivation) is present.

If no - why? } * student will surely find difficult in getting pass mark

A. Nalini
9/4/17

10 1.3 H.S. BHUVANESHWARI

- * B.Tech EEE - CAECN in III sem is too vast syllabus and students feel hard to cope up in 3rd sem.
- * Electrical machines lab - I & II can be included with compulsory simulation exercises along with usual experiments.
- * PSPS & HVE have one unit in common which can be avoided.
- * The course objectives and outcomes need to be corrected.
- * Recent advancements in all the courses can be included.

Note : Can mathematics be added in core stream in SEMESTER V & SEMESTER VI [Enclosure maths syllabus]

If yes - why?

Not still

If no - why?

Students may feel difficult in clearing their maths papers.
