EVENT DESCRIPTION

The two days hands on session was very much interesting. The speaker of the session Mr .SURYA TEJ MAHANKALI led the workshop in a very interactive way and the mentor MR.VINAY KUMAR NOMULA who was mentoring the whole session helping the students by solving their doubts. The first day of the workshop was about creating the visual recognition application using **Artificial Intelligence(AI)** and he was lively demonstrating it through IBM cloud account.It was easy for us to get involved and helped us to understand better about the application development in IBM cloud. The second day of the workshop continued to develop a chat bot using IBM Watson assistant service whichwas another added advantage to the workshop. Mr Surya was on dot in explaining the nook and corner of those services.On a whole, this handson session was a bunch of tech nector for the CSI members.
