It has been observed that there is a dearth for more physiotherapists to serve the increasing demand of health care issues related to medicine, surgery, sports etc. lot of job vacancies both in abroad and India are prevailing. As physiotherapist can do independent practice and there is growing demand. I request you to increase the BPT seats from 300 to 360 Nos.

With this in mind, BOS for Faculty of Physiotherapy had deliberated on all these issues and after thorough inspection of the premises and infrastructure has suggested that this proposal for increase in seat can be placed in the academic council for approval.
