Vice-Chancellor's Message

The main focus of our university is to empower the research scholars with sound knowledge in the highly competitive global scenario. Keeping this in mind the discussion for planning & execution of “MGR Research Award 2015” was initiated in the month of January 2015. In recent years, our university has reached a notable publication record on par with SCOPUS, Web of Science, etc., high indexed journal papers. I am pleased to congratulate the great scholars who had nurtured their talents in achieving this award.

- Prof. Dr. K. Meer Mustafa Hussain

Rector's Message

“If the newborn twigs and their leaves were all that existed, they would form a vague halo of green suspended in mid-air, but surely that is not the tree. The leaves, by themselves, are no more than trivial fluttering decoration. It is the trunk and limbs that give the tree its grandeur and the leaves themselves their meaning. There is not a discovery in science, however revolutionary, however sparkling with insight, that does not arise out of what went before” – (Isaac Asimov).

This University has seen considerable growth in the past couple of years in research. Our University Faculty Members' contribution and achievements towards research are published in indexed / referred journals which were acknowledged by our institution. This award started with a vision of providing a better foothold for the faculty in their research and to inculcate competence among the faculty. Our President promoted the idea of honoring the research achievers for their contribution in quality and quantity publications through “MGR Research Award”.

I congratulate the aspirants who had taken pain to acquire this within a short span of time.

- Prof. Dr. G. Gopalakrishnan
