

Institutional Societal Responsibility (ISR) Event

A place to be visited and taken care.

'All the Children Children's Home' at Viyasarbadi.

Faculty of Education along with NSS team feels so blessed to share the unforgettable moments experienced on 19.03.2021 with the children of the home. Those children were from streets, Orphans and Semi Orphans. Those children's attitudes are tough to handle because of the calamity they came across in their lives. Those children were assured safety first and this organisation take care of their lives. They train them in Drawing, Painting, Martial Arts like Karate, Silambam etc. Basic education is taken care. They support the children who really wants to aspire in education. No funds from govt. so survival is tough for them. They run this organisation only with the helping hands of the donors. Love and care is important but money is more important for their survival. So, on behalf of our Institution a ransom amount of cheque was donated for their meals.

Exposing the students to such events like a societal responsibility helps them to realise their involvement towards the needy and to lend their helping hands in the upliftment of the society.
