

'POLIOMYELITIS COGNIZANCE PROGRAMME'

We are delighted to share the report of 'POLIOMYELITIS COGNIZANCE PROGRAMME' which was organized by the Faculty of Education, Dr.M.G.R. Educational and Research Institute on 28th April 2023 with B. Ed First year students. Students visited several places both Rural and Urban areas. They met several families and insisted the Importance of Polio Drops by notifying that polio protects against severe devastating disease caused by the virus named as 'Polio Virus'. And also let them know about the early symptoms of Polio like fever, fatigue, headache vomiting etc. And also illuminated about the age limit for infants eligible for polio drops. They can get vaccinated early at 10 weeks old and last dose at 14 weeks old. It has created a good consciousness among the people about the need of Polio Drops and it's importance.
