

SUBJECT LECTURE

The Faculty of Education extends its immense pleasure in sharing the report of the subject lecture on '**Conceptualizing Disabilities**' by Ms.L.Maria Suganthi, Assistant Professor, Faculty of Education on 27.08.2021. This session was organised with the intention to lead the version of the disability paradigm in which disability is understood as discrimination, with equal protection and due process as means for countering this discrimination. The session met with a detailed explanation on the characteristics and types of disabilities and the causes for disabilities and how to identify the disability of the students like hearing speech and visual. The session was highly useful and informative.
