

Subject lecture on ‘Social Bases on Education’

Faculty of Education feels elated to share the report of subject lecture held on 04.08.2022 with 35 participants. The session was hosted by Dr.A.Thangam addressed the importance of Education and the influence of society, culture, modernization and democracy on Education. She highlighted that Education is a social process, education is growth, and education is not a preparation for life but is life itself. The purpose of the seminar was to introduce potential teachers to the many sorts of social bases and their purposes. It also had the intention of outlining the procedures in order to bring the learners at an early level and establish the purpose of education for the intended audience. The speaker made a clear idea on Sociological Foundations, Educational goals and development of social abilities and sentiments which brings out offers to implement behavioral changes in students in accordance to the needs of the society and also to the country.
