## Listening Skills

- Objectives
  - To enhance listening
  - To learn the importance of note-taking (classroom, lecture,hear radio)
  - To know the factors that affect the quality of listening skills
  - To engage in active listening.
  - To understand the role of nonverbal behavior.
- The art of listening is a simple ,bland sounding phrase but it has profound significance in life. The mind can pay attention to only one thing at a time. **Most of us just hear and do not listen.**
- Listening is a complex process-an integral part of the total communication process.** Speaking and writing are highly visible and are more easily assessed than Listening & Reading
