*TECH VOICE*

## **VISION**

To create technology proficient and ethically enriched IT professionals through holistic and state of art curriculum.

## **MISSION**

- To update the IT skills of students and faculty adapting recent technology developments in the curriculum as recommended by academicians, industry experts and alumni.
- To establish equipped laboratories to present excellent education in the conventional and modern vicinity of Information Technology.
- To create responsible IT professionals with ethical values and social responsibilities. To stimulate entrepreneurial mind-set among the students and enhance competency through regular industrial exposure.
- To utilize the family of alma mater through strong interaction and networking making them instrumental for development of academic and industrial linkage.

## **PROGRAM EDUCATIONAL OBJECTIVES[PEO's]**

Graduates will be able to:

- PEO 1: Excel by taking up key roles in IT and related industries, Government organizations and academia through strong leadership skills.
- PEO 2: Undertake higher studies and/or research in the field of Information Technology, management or other related domains.
- PEO 3: Develop innovative products and implement novel solutions to real world problems in IT and related interdisciplinary areas.
- PEO 4: Understand the societal impact of IT services and use their skills in an ethical, responsible and professional manner.
- PEO 5: Be updated with continuous learning and have a global perspective, so as to remain current in their profession while meeting the needs of the industry and nation at large.

## **PROGRAM SPECIFIC OUTCOMES[PSO's]**

Ability to augment the understanding of broad themes of STEM using Information Technology.

- Ability to analyse, design, develop and implement sustained IT solutions as a team to improve the productivity of the organization with social and economic constraints.
- Ability to apply ethical decision making, use IT industry recognized best practices and standards in the development, implementation and management of IT system integrating multiple domains.
- Ability to understand and update current trends in web technology, distributed infrastructure, data management, software engineering, system engineering and secured applications.

## HOD'S DESK

It gives me great pleasure to give my best wishes to “TECH VOICE” a newsletter from Department of Information Technology of Dr.M.G.R Educational and Research Institute. It is a technical platform to bring out the hidden talents of students and faculty .

The students faculties of department are always proactive in initiatives in technical, cultural and social events. I hope that this newsletter will serve the purpose of reflecting all activities of department and it will inspire others to do their best. Wishing you all the best. I take this opportunity to congratulate the students editorial team and our staff editors Dr.Dahlia Sam and Mr.A.Kameshwaran for their great effort to make this news letter as a reality. Also I invite the readers of “TECH VOICE” for their contribution and suggestions for the forthcoming issues. I wish good luck to the entire team of editors and look forward for your kind patronage to our newsletter.

## STUDENT CORNER

### BUSINESS COMPUTER NETWORKS

Small office and Home office [SOHO] environment use technology that is similar to home networks. Business often have additional communication, data storage and Security requirements that require expanding networks in different ways, particularly as the business gets larger. Whereas the home network generally function as one LAN, a business network tends to contain multiple LAN's. Companies with buildings in multiple locations use Wide-area network to connect these branch offices together.

### RANSOMWARE ATTACK

Ransomware is one of the deadliest malware programs that, after infiltrating the system, lock the files with strong encryption. After encrypting the files, the cybercriminal(s) behind the attack would ask the victim for the ransom in return for an encrypting tool or key. Without the decrypting key or tool, it is almost impossible to unlock the files from strong encryption.

The Ransomware attack is usually conducted on an organization rather than an individual for getting a significant monetary gain.

## ALUMINI CORNER

My 4 years Engineering at MGR University was indeed a memorable one. I came to this University with a dream of becoming an IT professional.

Every semester has been a step towards achieving my dream. Not only in the academic side, but our University gave various opportunities to fine tune my skills.

This included organizing various events within the campus or representing our University at inter college competitions.

HOD and all the department faculty were always friendly and encouraging. MGR University has played a major role in shaping me into who I am today.

I am so glad and proud to be an alumni of this great institute.
