B.A. LL.B (Hons.) - 5 years

B.B.A. LL.B (Hons.) - 5 years

B.Com. LL.B (Hons.) - 5 years

THE THEME OF THE WORKSHOP

Intellectual property refers to creations of the mind. It is protected in law. In trade secret protection to shield an invention or creation from being duplicated or copied by another individual or business. There are many advantages to securing intellectual property rights. Patents provide incentives to individuals by recognising their creativity and offering the possibility of material reward for their marketable inventions. These incentives encourage innovation. Trademark protection ensures that the owners of marks have the exclusive right to use them to identify goods or services. In large sense, trademarks promote initiative and enterprises worldwide by rewarding their owners with recognition and financial profit. A geographical indication is a sign used on goods that have a specific geographical origin and possess qualities or a reputation due to that place of origin.

Intellectual property in cyber space:

Cyber Space is the non-Physical domain where numerous computers are connected through computer networks to establish communication between them with the expansion of technology, cyber space has come within reach of every individual. Cyberspace is becoming a hub for intellectual property rights infringement. Several practices by the cyber site operators resulted in the violation of intellectual property rights and various other rights of other website operators. It has become crucial that people are aware of the illegal usage of their website.
