

Seminar

Mr. Pandiyarajan, the noted Director and Actor shared his experience with the students of Digital film technology.

He got nostalgic and spoke about his own days as a student while attending Film School .He gave the students a lot of insight about the real world when he spoke about his experiences while working with his co-stars.

He spoke extensively about hard work that he had to do for getting into the character of “Actor “. Having being trained in the art of Editing and other avenues of Film making, he also gave the students advice on making better movies. At an ending note, he had the entire audience into splits when he once again delivered his famous speech on the film direction and more. He was extremely impressed with the faculty, facilities and students of our department and said that he will not be surprised to see the next generation of acclaimed Directors and Technicians very soon from here.
