

INTERNAL QUALITY ASSURANCE CELL (IQAC)

IV QUARTERLY MEETING (April 25 to June 25)

Minutes of the Meeting

Agenda

Series of Deliberations on Skill Development Integration for Students through Coursera Platform

Meeting 1 – 26/04/2025 – Preliminary Discussions and Deliberations

Meeting 2 – 05/05/2025 – Implementation Strategies

Meeting 3 – 12/06/2025 – Official Launch

Meeting 1

Minutes of Meeting conducted by IQAC & the Office of Planning & Development

Date of the Meeting: 26/04/2025

Time: 3:00pm

Venue: Seminar Hall

Introduction

The Internal Quality Assurance Cell (IQAC) and the Office of Planning & Development convened a meeting to explore the modalities for implementing Coursera courses across various programs of our University. The meeting was held on **April 26, 2025**, from **3:00 PM** at the **Anna Block Seminar Hall**. Dr. MaliniPande, Addl. Registrar – P&D and Director IQAC, welcomed all Heads of Departments and provided a brief overview of Coursera's history in our University in her opening remarks.

Agenda

Modalities of implementing Coursera Courses in various Programs of the University

Key Discussion

Dr. Malini Pande Director IQAC suggested several approaches for integrating Coursera courses:

- Up to 20% of the curriculum can be replaced with Coursera content
- Introduction of new programs
- Courses can be leveraged for internal assessments
- Standalone value-added courses can be introduced to encourage multidisciplinary learning

Students completing these courses will receive certificates from reputed educational institutes and multinational companies. A major challenge identified was implementing Coursera for second and third-year students. Dr. Malini requested all HoDs to deliberate with their respective departments and devise suitable mechanisms for implementation.

Dr. Ganesan, JR, CDC, raised a query about collecting fees from higher-year students and suggested implementing it for PG students also, albeit with limited enrollment. He proposed making Coursera courses a compulsory component under open electives. He also questioned the course completion outcomes for students who fail the certification.

Dr. Parameswari, COE -Exam Section expressed concerns about how Coursera courses would be integrated with the examination system and their reflection on grade cards. However she appreciated the idea and told that it can be done after further deliberation.

Dr. S. Geetha, HoD, CSE, highlighted the need for detailed planning for daily implementation within the curriculum.

Dr. N. Ethiraj, Dean (E&T), proposed that Coursera courses could be made mandatory for the 2025–2026 batch. He also inquired about the duration of these courses.

Dr. Latha, COE-Exam Section raised a concern regarding first-year students' ability to cope with Coursera, suggesting that beginner-level courses should be considered for them.

Dr. Malini Director IQAC further prompted the group to consider:

- Whether Coursera courses should be treated as internal or external components of the curriculum.
- Whether they should be included as compulsory or value addition courses within the academic structure.

Dr. Viji Vinod, HoD, FOCA, proposed offering Coursera courses as a 1-credit ability enhancement course. However, she cautioned against evaluating an entire student category based solely on Coursera certification.

Dr. N. Harikrishnan, Principal, Pharmacy, expressed concerns about the relevance of Coursera courses in health science disciplines. He shared previous difficulties in stakeholder engagement for similar initiatives and suggested conducting a student interest survey.

Dr. V. Kalpana Devi, Principal, Allied Health Sciences, agreed to consult stakeholders to understand their interest and feasibility.

Dr. Senthilvelan, JR - Research, shared a past challenge where students questioned the need to pay for courses not reflected in the timetable. He also asked how to address situations where only a portion of students opt for Coursera—how would the remaining be assessed?

From the collective deliberation, it was considered feasible to pilot the Coursera initiative with **First Year E&T** and **First Year BCA** students. However, challenges were noted for part-time learners due to time constraints.

Dr. Jayachitra, HoD, Chemical Engineering, inquired about implementing Coursera for PG students, though she acknowledged the limitation in student strength.

Dr. Kavitha, HoD, Civil Engineering, referenced NBA guidelines which allow for 40 hours of self-learning for a 4-credit subject (totaling 120 hours). She proposed utilizing this provision to integrate Coursera.

Dr. S. Geetha, HoD, CSE, also highlighted the success rate of online learning during the COVID-19 pandemic, where students earned certificates from platforms like Udemy and NPTEL.

Dr. N. Kanya, Dean (Student Affairs), added that students could also opt for interdisciplinary courses such as Digital Marketing and Excel.

A representative from the **Department of Commerce** requested two days to hold internal discussions with their faculty..

Dr. Viji Vinod suggested making Coursera courses optional, allowing students to choose based on interest. In response, **Dr. N. Ethiraj**, Dean (E&T), remarked that unless made mandatory, students may not take them seriously.

Key decisions included:

- Up to **20% of the curriculum** can be substituted with Coursera courses under the CBCS (Choice-Based Credit System) framework.
- Opportunities for **new interdisciplinary programs** (e.g., **Genomic Studies** under Pharmacy).
- Utilization of Coursera courses for **internal assessments** and continuous evaluation.
- Adoption of **value-added and standalone certification programs** to promote **multidisciplinary learning**.

Concluding Remarks

The meeting concluded with the following action points:

- Each Department HoD will conduct internal meetings with faculty members to discuss possible implementation strategies.
- The Dean (E&T) will convene a follow-up meeting with all HoDs and submit the outcome in 2 days.
- Dr. Malini Director IQAC requested Dr. N. Ethiraj Dean – E&T to draft a model for integrating Coursera courses into the curriculum.

Meeting 2

Minutes of Meeting conducted by IQAC & the Office of Planning & Development

Date of the Meeting: 05/05/2025

Time: 11.30am-12.30pm

Venue: Seminar Hall

- A follow-up session was held with **Heads of Departments (HoDs)** to discuss department-specific strategies for implementing Coursera content.
- Coursera representative presented a detailed presentation regarding the online platform
- Basic login details, course builder, evaluation procedures, course catalog and other details were presented in detail
- Dr.MaliniPande, informed the HoDs and deans to convene department wise meetings and identify the courses in the curriculum, that can be blended with coursera
- The **Dean (Engineering & Technology)** convened a second-level meeting on 05/05/2025 to streamline course mapping and operational integration.
- Faculty of Management studies, Commerce and Computer Applications convened departmental meetings and identified their courses.
- The identified courses will implement coursera courses from the academic year 25-26.

Key decisions included:

- The Faculty of E&T, Commerce, Management studies, Computer Applications and Allied Health Sciences have convened department wise meeting and identified the courses that can be blended with coursera from the academic year 25-26
- Other departments/Faculty will deliberate on the possibilities of including the coursera through their curriculum.

Meeting 3 (12/6/25) - Official Launch& Implementation strategy meeting

Date of the Meeting: 12/06/25

Time: 12.30pm

Venue: SLMCH Campus / Seminar Hall

The **University-Coursera partnership** was officially launched on **12.06.2025** by **Hon'ble Chancellor Dr. A.C. Shanmugam**, and **Hon. President, Er.ACS.Arunkumar** marking the commencement of global upskilling opportunities for students.

Implementation Strategy Discussion:

Subsequent to the official launch, a meeting was convened by the Office of Planning & Development for all HoDs and Faculty Heads.

Each **Department finalized Coursera course alignments** relevant to their domain and submitted implementation plans for integration into their curriculum.

Coursera Director presented the details of various courses and login credentials.

He explained the procedures to select a course and elaborated on Course builder option to build our own course materials.

Dr.Kalpalatha Reddy, Addn. Dean (E&T) was enquiring about the available course and the availability to students. Mr.Malay explained that the courses can be of two types – one is mandatory for all students through curriculum and the other will be for the students to choose their course as per their interest. He clarified that there is no limitations for a student to choose his/her courses from the available courses.

Coursera Director clearly explained the assessment procedures for a concern raised by Dr.M.Ganesan regarding assessments.

Coursera Director explained about the course builder options available in the platform. The options are as follows

The staff handling a particular course, can utilize the available content for delivering the course. The staff members can modify the existing contents as per their requirements.

Dr. M.G.R.

DEEMED TO BE UNIVERSITY
University with Graded Autonomy Status
(An ISO 21001 : 2018 Certified Institution)
Periyar E.V.R. High Road, Maduravoyal, Chennai-95, Tamilnadu, India.

The staff can provide the entire contents from their side for the courses they are opting to deliver through Coursera.

Coursera Director also explained the procedures for the generation of MCQs and assessment questions through the platform.

Key decisions included:

- The Faculty of E&T, Commerce, Management studies, Computer Applications and Allied Health Sciences have identified the courses that can be blended with Coursera from the academic year 25-26
- Log in credentials will be provided for staff handling the courses through Coursera for implementation.
